

Aims

Mortality from breast cancer is declining in most countries thanks to effective screening programs, early diagnosis, molecular characterization of the different subtypes and biology-driven treatments. A multidisciplinary management of breast cancer patients is therefore the key to success and a breast multidisciplinary team should include - besides the "classic" clinical specialties - pathologists, molecular biologists and geneticists. Furthermore, the availability of multiple diagnostic and therapeutic choices, the increasing costs of new technologies and drugs and the issue of sustainability represent a new challenge for socially-responsible clinicians. With this goal in mind, the Programme includes lectures on molecular characterization, updated treatments of early and advanced disease, management of difficult cases and hereditary syndromes and issues of sustainability and drug access across countries.

Addressed to

Gynaecologists and obstetrics, medical oncologists, pathologists, radiologists, radiation oncologists, surgeons. Biologists, pharmacists, and nurses.

Thursday, September 30th

International speakers will be connected from various countries and local speakers will be present at the meeting venue.

14.45	Introduction to the Conference Pier Franco Conte, Gabriel N. Hortobagyi, Valentina Guarneri, Philip Poortmans
	SESSION I Chairpersons: Hesham Ahmed Gaballah Elghazaly, Pier Franco Conte
15.20	Obesity and cancer Roberto Vettor
15.20	Management of women BRCA1/2 and other predisposition gene mutations Shani Paluch-Shimon
15.40	Axillary dissection: still an option? Elefterios Mamounas
16.00	Hot topics in breast cancer RT Philip Poortmans
16.20	Clinical impact of genomics in BC Aleix Prat
16.40	PIK3CA testing: from technical aspects to clinical application Sybille Loibl
17.00	Prognostic signatures to guide treatment decision Gabriel N. Hortobagyi
17.20	Q&A
17 20	Adjourn

Friday, October 1st

Valentina Guarneri

International speakers will be connected from various countries and local speakers will be present at the meeting venue.

	SESSION II – MULTIDISCIPLINARY TUMOR BOARD Chairperson: Pier Franco Conte, Valentina Guarneri
10.00	Clinical case 1: Omission of RT in elderly patients with low-risk tumor Franco Berti
10.20	Clinical case 2: cT1c, cN0 HER2+tumor: neo vs adjuvant (option to escalate or de-escalate therapy) Cristina Falci
10.40	Clinical case 3: Post-neoadjuvant therapy in patients with RD (stressing the concept of RCB and characterization of RD) Federica Miglietta
11.00	Clinical case 4: oligometastatic disease Grazia Vernaci
11.20	Clinical case 5: Brain mets Gaia Griguolo
11.40	Clinical case 6: when to stop active therapy Carlo Alberto Giorgi
12.00	Lunch
	SESSION III Chairpersons: Jacek Jassem, Valentina Guarneri
14.30	Adjuvant CDK4/6i for HR+ disease:

14.50	Pier Franco Conte
15.10	Neoadjuvant therapy for early breast cancer: beyond the pCR dogma Pier Franco Conte
15.30	Immunotherapy for early TNBC: hopes and hypes Hope Rugo
15.50	Q&A
16.10	Antibody Drug Conjugates for BC Frederik Marmè
16.30	Targeting unconventional pathways in Luminal BC Maria Vittoria Dieci
16.50	Treatment algorithm for HR+/HER2- ABC Stephen Johnston
17.10	Treatment algorithm for HER2+ ABC Sandra Swain
17.30	Treatment algorithm and new options for TN ABC Miguel Martin
17.50	Q&A
18.10	Adjourn

Access Mode

To ensure compliance with the health event provisions relating to Covid-19, AIBCC 2021 will be held both as in-class course and as a live webinar. When registering, it is necessary to select the desired participation method, until exhaustion of available places. Registration for the activity can only take place online, no registrations will be accepted at the congress venue. AccMed reserves the right to carry out the event exclusively in digital mode if the situation of the health emergency from Covid-19 makes it necessary. In this case, AccMed will be responsible for informing speakers and participants of the change in the way the event is going to be held.

Live webinar

The Live Webinar will allow participants to attend to AIBCC 2021 from anywhere in the world.

The Live Webinar, with the participation of speakers connected from various countries, is addressed to both Italian and foreign participants. The official language of the course is English. No simultaneous translation will be provided.

To follow the webinar, participants will need a good quality internet connection and a device (PC, Smartphone, Tablet) capable of running a recent Internet browser (e.g. any updated version of Chrome or Firefox).

In-Class Course

The in-class course will take place at the venue specified underneath. Please note that due to COVID mitigation measures, the availability of places for the in-presence course is limited.

The in-class course, with the participation of speakers connected from various countries and local speakers present at the meeting venue, is addressed primarily to Italian participants. The official language of the course is English. No simultaneous translation will be provided.

CME Webinar live

Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) will assign to the activity CME (31-324301): 12 CME points.

Training objective: professional and technical content (knowledge and skills) specific to each profession, specialisation and highly specialised activity. Rare disease.

The credit certification for the webinar is subject to:

- Professions/specializations should correspond to those which have been accredited for CME
- attendance at the 100% of the async distance learning and webinar live on the platform fad.accmed.org;
- the completion of the Meeting evaluation online form;
- completion of the final test (at least 75% of correct answers). 5 attempts admitted.

The test and the meeting evaluation form must be completed within 3 days from the end of the event.

CME In-Class Course

Based on the in force regulations approved by the CNFC, Accademia Nazionale di Medicina (provider n. 31) will assign to the activity CME (31-324769): 8 CME points.

The credit certification for the webinar is subject to:

- Professions/specializations should correspond to those which have been accredited for CME;
- attendance at the 90% of the meeting;
- completion of the meeting evaluation online form;
- completion of the final test (at least 75% of correct answers). 1 attempt admitted.

The test and the meeting evaluation form must be completed within 3 days from the end of the event.

Training objective: professional and technical content (knowledge and skills) specific to each profession, specialisation and highly specialised activity. Rare disease.
